ABOUT US

The [All4Integrity Association](#) is a non-partisan, non-profit association of civil society for civil society, created from an individual initiative by Professor [André Corrêa d'Almeida](#) (Columbia University), launched on 5 October 2020 on the streets of New York with the name *#libertemomeupaísdacorrupção*.

All4Integrity has become the first and only Portuguese association and global network to **promote a culture of integrity in the country**. The media coverage, talent, merit, commitment and social capital of all its collaborators quickly turned this association into an incubator for initiatives and programmes to prevent and combat corruption, with a view to developing and promoting a culture of integrity in Portugal.

REDESCOLAS ANTI-CORRUPTION

The **anticorruption literacy programme** promotes in young people a sense of public space and the common good, as well as trust and empathy for local institutions, in a process of raising awareness and changing behaviour that favours the dissemination and deepening of a culture of integrity in Portuguese society.

The 1st Edition was launched in the 2021/2022 school year and 17 schools took part - 16 in Portugal and 1 internationally (Macau).

Present on three continents, the 2nd Edition of the RedEscolas AntiCorruption Programme [tripled the number of participating schools](#), reaching 15 of Portugal's 18 districts, including the islands, Northern Ireland, Macau and Mozambique.
